

# Index

# Volume 5, 1973

		Page
Presidential address: In the light of change and experience	G. P. Cundall	1
Appraisals of traffic route lighting installations	P. R. Cornwell	10
The effect of measurement uncertainty on the colour rendering indices of fluorescent lamps	J. R. Moore, P. Stott, I. F. Davis, M. B. Halstead, & F. E. Large	17
The use of television equipment in research on incandescent lamps	O. Schob, J. R. de Bie & W. G. A. Klomp	29
Void formation in tungsten lamp filaments	J. H. Day	36
Individual and group differences in discomfort glare responses	P. T. Stone & S. D. P. Harker	41
National Illumination Committee of Great Britain Report		55
Integrated services in modern office buildings	I. Crichton & M. Wood-Robinson	69
Corrections for chromatic adaptation in the determination of colour rendering indices	M. B. Halstead, S. T. Henderson, F. E. Large & W. N. Spronson	84
Automatic tracing of photometric curves	S. Bini & P. Soardo	95
A method for the calculation of direct illuminance due to area sources of various distributions	R. I. Bell	99
Spaciousness in interiors	M. Inui & T. Miyata	103
Age, illuminance, visual performance and preference	P. R. Boyce	125
Solid state light sources—illumination or display	R. W. Brander, R. L. Rouse & L. A. Thomas	145
Holography as a diagnostic technique in the study of lamps and lighting	N. J. Phillips & J. R. Coaton	156
Development and practice in the daylighting of buildings	J. A. M. Bell	173
Comparison of some European interior lighting recommendations	D. Fischer	186
Illuminance and utilisation calculations for luminous ceilings	H. E. Bellchambers & A. C. Godby	195
Current knowledge of visual performance	P. R. Boyce	204
Angle flux: a new concept for the photometric evaluation of fluorescent lamp luminaires	H. D. Einhorn	213

## Research Notes

Intensity distributions from street lighting lanterns—smoothness below the peak	H. M. Ferguson	50
Tungsten halogen and metal halide discharge lamps in floodlights	D. O. Wharmby	52
Flux distribution with perfect specular reflectors	H. W. Bodmann & B. Weis	112
Subjective response to a.c. and d.c. fluorescent lighting	C. W. Brundrett, I. D. Griffiths & P. R. Boyce	160
The automatic dimming of headlights in lit streets	J. S. Yerrell	162
New developments in the starting of fluorescent lamps with preheated cathodes	H.-J. Hentschel & E. Rasch	217

## Abstracts

61, 116, 165, 220

## IES Notes

67, 123, 171, 226
